Item 1: Introduction

First Affirmative Financial Network, LLC ("we") is registered with the Securities & Exchange Commission ("SEC") as an investment advisor. Our services and fees are different than the services provided by a brokerage firm. It is important to us that you understand the differences. At [Investor.gov/CRS](https://www.investor.gov/crs), research firms and financial professionals can access free and simple tools and educational materials about broker-dealers, investment advisors, and investing.

Item 2: Relationships and Services

What Investment services and advice can you provide me?

For more information about our services, please see our [ADV Disclosure Brochure](#).

We can provide you (a retail investor) with investment advice on a discretionary basis. You can access our services either solely through First Affirmative by establishing a relationship with one of our investment advisor representatives or in conjunction with a relationship you establish with another investment advisor or broker-dealer, who are independent of First Affirmative, but who offer access to our services. We also offer non-discretionary administrative services to independent investment advisors or broker-dealers.

We will ask you about your investing goals, your risk tolerance, and other information to develop an Investment Policy Statement (IPS), which is your investment strategy. However, necessary to implement your strategy. We will not make changes to your investment strategy without your written approval although we do allow changes either up or down one risk level without a signature. As a part of our standard services, we monitor investor accounts and review accounts quarterly on a best-efforts basis. Please see our [ADV Disclosure Brochure](#) under Client Account Reviews for more information. Some of our investment programs are available through wrap fee programs, whereas others are not. See our [ADV Disclosure Brochure](#) for a description of the investment programs and their availability. Minimum investments vary by program and custodian based on services available with the lowest minimum being \$25,000, which is negotiable under certain circumstances.

We incorporate values-alignment analysis into your investing strategy, which allows you to include or exclude companies or industries from your portfolio consistent with your social goals. These values include sustainable, responsible, impact investing (SRI), environmental, sustainability, and governance investing (ESG), and faith-based investing. We primarily use equity securities, mutual funds, exchange traded funds and in some cases, individual bonds. We do not use proprietary investment vehicles other than proprietary models at certain custodians.

We also offer financial planning services through some of our investment advisor representatives. Financial planning services are not included as part of our investment advisory services and you must pay separate fees for the financial planning service, which are charged based on a flat fee or an hourly basis.

Conversation Starters: Given my financial situation, should I choose an investment advisory service? Why or why not?

How will you choose investments to recommend to me?

What is your relevant experience, including your licenses, education, and other qualifications? What do these qualifications mean?

Item 3: Fees, Costs, Conflicts, and Standard of Conduct

What fees will I pay?

We will charge you fees based on a percentage of the average daily balance of your assets under management with us over the previous calendar quarter. The percentage will differ depending on the investment strategy you choose,

including whether the strategy is available through a wrap fee program. Wrap fees include the charges for our advice, the fees for custody of your assets, the cost to execute your trades, and, if requested, the fees charged by your investment advisor. The wrap fee does not include incidental charges such as wire fees. If you choose an investment program not offered through a wrap fee program, the asset-based fee will cover our advisory services, but not the cost of custody or trade execution. Because wrap fees include the cost for advice, custody and trade execution, the fee you pay may be more than if you were to pay for these services individually and are more than fees just for advisory services. Please see our [Apex Wrap Fee Brochure](#), [Goldman Sachs Wrap Fee Brochure](#), and our [Orion Wrap Fee Brochure](#) for more information about wrap fee costs, and our [ADV Disclosure Brochure](#), Item 5.E. for a schedule of fees by investment strategy.

You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time.

Conversation Starter: Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go toward fees and costs, and how much will be invested for me?

 **What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?**

When we act as your investment advisor, we must act as a fiduciary and put our best interests after your best interests. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here is an example to help you understand what this means. As your account grows, we will make more and therefore have an incentive to increase the assets in your account(s).

For more information about conflicts of interest please see our [ADV Disclosure Brochure](#).

Conversation starter: How might your conflicts of interest affect me, and how will you address them?

 **How do your financial professionals make money?**

Our financial professionals receive a portion of the asset-based fees that you pay us to manage your account, which can provide them with an incentive to increase assets in your account.

Item 4: Disciplinary History

 **Do you or your financial professionals have any legal or disciplinary history?**

Yes, a control person of First Affirmative had a disciplinary action in 1989 prior to their employment with First Affirmative. In addition, one of First Affirmative's IARs had a charge against them in 2009 that was dismissed. No other disciplinary or legal event has occurred regarding First Affirmative, its staff, or its Investment Advisor Representatives (IARs). You should visit investor.gov for a free and easy search tool to research First Affirmative and your financial professional.

Conversation starter: As a financial professional, do you have any disciplinary history? For what type of conduct?

Item 5: Additional Information

You can find more information on us and our services at www.firstaffirmative.com. Under the About tab, Disclosures, you can find our [ADV Disclosure Brochure](#), [Goldman Sachs Wrap Fee Brochure](#), [Apex Wrap Fee Brochure](#), and [Orion Wrap Fee Brochure](#), and a copy of this Client Relationship Summary. We can also be reached at 719-478-7036.

Conversation Starter: Who is my primary contact person? Is he or she a representative of an investment advisor or a broker-dealer? Who can I talk to if I have concerns about how this person is treating me?
